1H-

HAER No. WY-54-H

Location: Northern-most structure, in line of structures, south of hoist house, east side of valley
Willow Creek Valley
East of County Road 306
3 Miles North of U.S. Highway 189
Kemmerer vicinity
Lincoln County
Wyoming

Significance: The residential houses owned by the company and rented to workers represented an important aspect of the company town.

Description: All that is left is ruins of foundations with workmanship on those foundations declining in quality from unit number 1, nearest the hoist house, to unit number 10, farthest from hoist house; ten units of uneven sizes, some being multi-family or rooming houses.

History: Constructed in 1913 as an integral part of the Sublet Mine No. 6, built, operated and owned by Kemmerer Coal Company; ceased production 1927.

Sources: State Mine Inspector Reports, 1913-1927; Kemmerer Coal Company Collections in Fossil Country Futures Museum (Kemmerer), American Heritage Center (University of Wyoming), Wyoming Historical Research Division (Cheyenne)
